

HKRP CASE STUDY

Sustainability solutions from Sustainability Professionals

 **Objectives**

- HKRP were seeking to get certified to ISO 14001, ISO 45001 and ISO 9001 - Environmental, Safety and Quality management standards

 **Challenges**

- Existing internal resource was over committed for HKRP and they needed extra support
- SAI Global have high standards and it is a high risk industry
- Timing - Need it fast

 **Solutions found**

- Integrated management system augmented and added to to meet requirements
- Writing of procedures and consulting on requirements
- Legal and other requirements review
- Internal audit cycle completed and management review

OUR BENEFITS

Benefits One

Improved Safety, Quality and Environmental performance and capability

Benefits two

Improved client focused outcomes which lead to greater customer delight

Benefits Three

We are certified to ISO 9001, 14001 and 45001 certifications which is a competitive advantage in the private and government sector

"We are certified by SAI Global and we are very happy about that"
